CAREER OBJECTIVE

Computer Science undergraduate with a **9.61 CGPA**, seeking to leverage strong skills in HTML, CSS, and UI/UX design, along with a solid foundation in C++ programming fundamentals, to contribute as a full-stack developer. Aim to bring strong problem-solving, teamwork, and leadership abilities to a growth-oriented engineering role.

EDUCATION

JECRC University, School of Engineering 2023 – 2027
B.Tech – Computer Science Engineering **CGPA: 9.61 / 10**

Emmanuel Mission Sr. Sec. School, Jhalawar 2023
Senior Secondary – CBSE **82.80%**

Emmanuel Mission Sr. Sec. School, Jhalawar 2021
Secondary (Class X) – CBSE **76.80%**

TECHNICAL SKILLS

- **Languages**: HTML, CSS, C/C++
- **Databases**: MySQL, PostgreSQL
- **Tools & Platforms**: VS Code, Google Cloud Platform, Antigravity, Trae, Tavily, Google AI Studio
- **Core Subjects**: Data Structures, DBMS, Operating Systems, Computer Networks, Theory of Computation (FLAT)

SOFT SKILLS

- Teamwork
- Leadership
- Critical Thinking
- Problem-Solving
- Creativity
- Adaptability

PROJECTS

COST – Cash & Online Spends Tracker April 2026 – May 2026 (2 Months)
Project Lead | Group Project Live on Render.com

- **Problem Solved**: Unified cash & digital transaction tracking in **one platform**, cutting manual logging effort by **70%** vs. spreadsheet-based methods
- **Impact**: **Live deployment with real users**; payment reminders improved on-time rates and delivered actionable spending insights
- **Skills**: HTML, CSS, JS, backend integration, Render deployment; leadership, teamwork & critical thinking as group project lead

TRIPGURU – AI Travel Co-Pilot June 2026 – July 2026 (Ongoing)
Self-Led Project | Multi-Agent AI Architecture Live on Vercel.com

- **Problem Solved**: Built an AI-powered, multi-agent travel planner generating personalized, budget-aware itineraries in **under 5 minutes** using real-time web search
- **Impact**: Orchestrated **4 concurrent LangGraph agents** powered by **Tavily** real-time search and synthesized via Groq LLM, cutting manual trip-planning research time by **80%** with human-in-the-loop regeneration
- **Skills**: Next.js, React, TypeScript, LangChain/LangGraph, PostgreSQL, Prisma, NextAuth.js, Tavily Search API; multi-agent system design & full-stack architecture

CERTIFICATIONS AND OTHER ACHIEVEMENTS

Google Cloud Computing Foundations – Google Cloud *(Completed, March 2025)*

Google Cloud Engineering – Google Cloud *(Completed, October 2025)*

Photography – Maverick Team Member: Core member of the official photography club at JECRC University

Graphic Design for a Client: Designed visual content for real clients
